Nevada City Nugget

VOLUME III, NUMBER 28 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA, THE COUNTY SEAT PAPER MAY 27, 1929

HOGE DOES 700 FT. DEVELOPMENT WORK FOR SHAFT

The Hoge Development Company are operating with two shifts on their development work north of town and have already done about 700 feet of prospeting in the way of tunnels, shafts, drifts and cross cuts.

Hoge states that on the whole, their prospecting work has been very satisfactory, and that later on, when they have fully determined in the minds of the engineers, as to where the main shaft should be located, that they are planning upon a large and systematic development. Mr. Uren, who has just recently returned from Kimberly, B. C. has been out on a tour of examination and inspection and has expressed himself as being highly pleased, with the prospects of developing a big new mine in a virgin territory.

The old early day workings that they have opened up for inspection, along with their new developments, has given to Messrs. Uren and Hoge a good general idea of about where they want their main shaft. And within a short time, they are going to make their definite plans for a long time operation.

As the editor of this paper has heretofore stated this Company has a very promising future. They have a large area of virgin territory of more than ordinary promise from a quartz standpoint. And they also have possibilities of opening up a good gravel channel.

They spend their money on a systematic and careful plan of development, and consequently have a bright future for developing a large and steady producer.

SPECIMEN ORE FOUND IN SALMON MIME AT TYLER

Finding of specimen ore on the 140 leel is reported from the Salmon mine at Badger Hill north of Cherokee, or Tyler, the past week. The property is under bond by the Parnall Gold Minesc Corporation, W. D. Hill of Los Angeles, general manager.

Reports state that an eight inch vein has been cut in the incine shaft showing plenty of free gold sprinkled through the quartz. The company has been doing considerable development work the past two years and production on a large scale is expected during the current year.

The Siebria mine being developed by San Francisco interests and which is a propmising property, adjoins the Salmon mine.

SNOW POINT MINES ARE BONDED, OPERATIONS

Allyn Burr and associates of Sacramento have bonded the Wand and Blackwell and Curtis groups of claims in the Snow Point district the past week and expect to commence active operations at an early date. The Gold Lead company having interests there is connected with the new movement.

A tunnel about 180 in length was run by Oscar Coflin through Twin Sister property under easement and this will be continued several hundred feet to the Curtis ground. The property has known gravel of good value from past workings by Chinese. leasers in early days.

The properties are owned by Chas. Hegarty and in part by E. C. Uren.

MRS. LAURA MALLEN DEAD

Mrs. Laura Mallen ,relict of the late C. H. Mallen, passed away in San Francisco Friday night, but a few months after her husband's demise. She was a native of Ohio but had spent practically here entire life in his community.

Surviving are two sons, Howard and Murray of San Francisco, and a daugher, Mrs. C. O. Barker, also of San Francisco.

Mr. and Mrs. W. I. Holland have as guests, her mother, Mrs. Kenney, and sister, Mrs. A. J. Mitchell, both of San Luis Obispo.

MINING LOCATIONS ARE PLACED COUNTY RECORD

The following mining claims have been recorded the past week:

Lucky Strike quartz in Meadow Lake Mining District by George Banquier.

White Ledge quartz by Pete Bokay in Meadow Lake Mining District.

MOHAWK CLEANUP SHOWS GOOD VALUES IN ORE

A cleanup of two test runs of ore at the Mohawk property in Gold Flat shows encouraging values. Ore run containing 1600 pounds of rock taken from surface croppings of six veins plated a brick worth $21.75 or at the rate of $27.20 per ton. From a 2000 pound run a brick worth $28.80 was taken. Development work at the property has been held up pending the installation of a compressor and the getting of work started at properties in Plumas and Amador counties which are held by the company. Superintendent Martin E. Olsen has gone to Crescent Mills to inspect the Standart property there which the company has been opening up. The Haverley property about 10 miles south east of Jackson is also under bond.

By the terms of the option held on the Mohawk property the company will commence operations again before June 1st and Superintendent Olsen states that everything is in readiness to commence sinking operations again in the shaft which had reached a depth of 70 feet.

JIM STEWART GIVES AN EXCELLENT TALK

James D. Stewart, on whose shoulders seems to have fallen the duty of leading the fight for the resumption of placer mining in California, was in fine fettle as he appeared as the speaker of the day at the meeting of the Lions Club last week. Thomas W. Richards as chairman of the day, introduced the speaker in appropriate words.

Mr. Stewart carried the audience through the details of the fight conducted in the last meeting in the legislature in which Assemblyman Seawell played such a prominent part. Mr. Stewart highly praised the work of Senator James M. Allen of Yreka who led the fight in the senate. Mr. Stewart paid great stress to the work of Mr. Seawell and complimented the district on possessing such an able young legislator. His remarks were roundly applauded.

Jim Stewart has given largely of his time and resources for some years past in behalf of the mining industry and it is to be regretted that the industry has not shown a greater response to his efforts particularly in the matter of providing the sinews of war to carry on the good work. The formation of the proposed state mining association would help greatly.

C. Dan McGonigal was in from Woodleaf Saturday and reported that the mill on his property would be operating within a week on good ore. He and Riley Self have bonded a promising property there.

Ed A. Higgins, prominent mining man of the Graniteville section, was a Nevada City business visitor Saturday.

Mrs. Ed Moore of San Francisco arrived Wednesday to visit relatives Her father, John Ponta, who has been visiting his daughters in San Francisco, returned to his home with Mrs. Moore.

Miss Dorothy Bosanko attended the state Rebekah Assembly in San Francisco last week.

Scott Rundy, who is attending the College of the Pacific at Stockton, went on the air the other evening in a music broadcast over Station KGW. His violin playing has been attracting a great deal of notice and a brilliant future is predicted for him.

Mrs. William Davey has as a visitor her aunt, Mrs. William K. Runyon, nee Miss Minnie McNeely of Nevada City, and now of San Marino, Southern Oregon.

KERVIN NAMED MANAGER THE EMPIRE NO. STAR

One of the first operating officials to be appointed by the Newmont interests for the management of the Empire and North Star properties is George A. Kervin, for the past two years general manager of the Mason Valley mines in Nevada. The name under which the North Star and Empire are to be operated is the Empire Star Mines, Ltd. Kervin will remain at Yerington until the mill and flotation plant are closed down and will then make his headquarters at Grass Valley.

The company is proceeding actively with development work at the properties and the Empire mill is dropping 80 stamps regularly on good rock. Contracts for running drifts into promising ground from the North Star workings are understood to have been let the past few weeks.

ILLUMINATED SIGNS ARE BEING CONSIDERED

One of the marks of a progressive town nowanights is a mass of animated illumination. Nevada City has not gone in much for illumination heretofore but it is expected that within a few weeks some of our business houses will be sporting the latest in illuminated signs. One business man is known to be figuring on a thoroughly modern flashing sign which will attract instant attention and it is expected that others will soon follow the example.

The publisher has been boosting for a welcome arch to be erected over Pine street to let people know what town they are entering ,and it is hoped that our local civic body will see it brough to a successful conclusion. Nevada City can well afford to look forward to the time when our tourist business will make quite a jingle in the cash drawer.

Something the city could well do is to name the street leading from the state highway to the Reward Mine, Hoover Avenue in honor of the country's leading citizen. The city could well afford to clean up the litter and garbage from the vicinity of the road and make the place presentable for sightseers. The plan has been broached by this paper several times in the past but no organization has as yet taken the matter up.

Jesse Ennor of the Indian Springs district was a business visitor here Friday afternoon.

A birthday dinner was given at he home of Mr. and Mrs. A. Wisker in honor of her birthday. Several mebers of the family were present for the happy anniversary.

M. Angiolini returned early in the week from attending the Odd Fellows Grand Lodge, as a delegate. He visited his daughter, Miss Clara, in San Francisco, before returning home.

The barn on the Neilson property at French Corral was destroyed by fire last week.

R. L. Egenhoff, engineer of the Debris Commission, was in Nevada City during the week. He made an official visit into the north country while here.

Mrs. Anna True is here from San Francisco visiting her aunt, Mrs. Bertha Smith.

F. L. Smith of Berkeley, who was formerly in the tailoring business here, was up over the last week end meeting old acquantances here and visiting various spots of interest.

R. L. P. Bigelow, E. J. Baker and C. W. Chapman were in San Francisco last week to attend the Grand Parlor of the Native Sons.

Mrs. P. O. Strandberg had as a guest over the week end her sister, Miss Esther DeTurbeville, supervisor of County Work and Homes for Aged of the State Department of Social Welfare, at Sacrameno.

Mr. and Mrs. Harold Flynn are at Sardine Lookout Station, where he is stationed for the summer by the Forest Service.

High class electrical work of all kinds at Miner's Foundry. 24tf

MANY CALLS ARE COMING IN FOR MINING NUMBER

Calls for the special mining number have been coming in from widely scattered points the past week. With approximately 3000 copies already distributed it is expected that the remaining supply will not last many weeks longer and those expecting to purchase copies to help boost Nevada County mining should not delay in placing their orders. Copies will be reserved on order and can be called for later.

Some of the business men have shown a great deal of interest in the edition by ordering extra copies to be sent outside, which is the best advertising of our mineral resources to be gotten out in many years. Copies may be purchased at this office and are also on sale at the Preston newstand in Nevada City and Trezise Brothers in Grass Valley.

Complimentary remarks continue to come in from people who have read the issue and one visitor Tuesday stated that he had heard of the excellent edition over in the state of Nevada and had come clear to Nevada City to get a copy with in-

A. O. Witte, Los Angeles— "Inclosed check for $3.00. Kindly send me as many numbers of your special mining numberof May 10th as it will cover. I am operating the Boreham property under the name of Grass Valley Boreham Gold Mining Co., he writer being President and Engineer. Please get copies to us soon as possible."

Garland & Walker, San Francisco —"Recently we received your 'Special Mining Number' which, we think, is one of the best forward steps in advertising the revival of mining in Nevada County and California as a whole. We trust that California mining will soon bloom in all its former glory."

F. C. Foote— "Enclosed find 25c in stamps, for which please send me copies of your special mining number, a copy of which I just saw at the office of Victor Hyatt in Los Angeles".

John R. Tyrrell, Former State Senator of Nevada County— "The Special Mining number of The Nugget was received in the mail this morning, and is rich in mining lore and mining news, and facts of Nevada County. As one who has spent all the early part of his life in Nevada County, and has always been interested in the mining industry, I can appreciate the value of the Special Mining number, and desire to congratulate you on the result of your splendid effort".

Smith Emery & Co., San Francisco— "Will you kindly send us the special mining number of the Nevada City Nugget which came off the press last week we understand. We were informed that this issue contains a wealth of information concerning mining in Nevada County district and Northern California with several excellent articles by well known mining men, and we consider that it would be a valuable asset to our library".

C. Starcher, Yakima, Wash.,— "Please send me your "Mining Special Edition". I am interested in mines in Calaveras, Nevada and Plumas counties of California".

Bonanza King Mining Company— "Please send us 7 copies of your Mining Special", or "Mining Number". We like the boost you are putting in it. You deserve credit for its splendid assortment of real mining news".

A. W. Stowe, Salt Lake City — "I wish to secure a copy of your Special Mining Number recently issued, and if you will mail me a copy and advise me as to the amount of the bill I will gladly remit to cover".

Mrs. Cook, who teaches at Pike City and George Wayman of North San Juan were visitors in Nevada City Saturday.

Mr. and Mrs. William H. Goede purchased the old Robinson property recently. They were up over the week end planning to tear down the old dwelling and erect a bungalow. The old house was built about 60 years ago by Thos. Ribinson.

NEW HOIST INSTALLED AT THE BESSLER MINE

A new hoist with a 60 horse power gas engine has recently been installed at the Bessler mine in Downieville. The new shaft is 146 feet deep. The property which is just above the town is one of the promising properties of the district and has shown a good production record with the limited work which has been done in the past.

As soon as an adequate electric power supply has been made available, it is expected that active operations will be undertaken to develop the property in a large way. Bill Groh is in charge of operations for the company.

A. D. Frumento, mining engineer, who is representing the interests financing the development work and who have the property under bond from the Golden Key Mining Company, is highly pleased with the showing made thus far in the development program and states that adequate power will mean large time operations.

PETITION SEEKS FUNDS FROM COUNTY TREASURY

The following item appeared in last week's Truckee Republican:

It was moved at the meeting of the Nevada County Promotion Board, held Monday night at Grass Valley, that a resolution be drawn up petitioning the board of supervisors to consider appropriating $5,000 in this year's budget, for the purpose of publicizing Nevada couny.

Mr. and Mrs. Fred Joubert, Mrs. William Meek and Miss Allen all of Camptonville, were in Nevada City Friday.

The Nugget publisher has been reappointed chairman of the correspondence committee of the Grand Chapter of Royal Arch Masons to serve his fourth year in that capacity.

Rev. and Mrs. H. H. Buckner and daughter-in-law, Mrs. Anne Buckner, were called to San Francisco Monday by the death of Mrs. Buckner's sister, Mrs. Nora McEwen. last Sunday. They attended the funeral which was held Tuesday afternoon. Mrs. McEwen had visited here and made a number of friends who will be sorry to learn of her passing. Rev. and Mrs. Buckner and daughter-in-law returned home Wednesday.

Mr. and Mrs. M. M. Shirkey, Mr. and Mrs. Carroll Shirley of Bell. Calif. are spending a vacation in North Columbia. Miss Florence Hatcher of North Columbia accompanied the two couples to Nevada City Monday for a short business trip.

Assemblyman Jerry Seawell of Roseville attended the Lion's Club luncheon in Nevada City Tuesday.

Mr. and Mrs. Olier Schafer came down from Alleghany Sunday and visited friends.

Ignition Parts and Accesories at Miner's Foundry. 24tf

MORNING GLORY AT ALLEGHANY IS BEING OPENED

Work is starting at the Morning Glory mine at Alleghany which adjoins the famous Tightner mine. A small crew is at present engaged in wrecking the present surface buildings and they will be rebuilt in a substantial manner. The 400 foot shaft will be pumped out and retimbered and development of the property will be undertaken this summer according to the present schedule.

The property is under bond to the Alleghany Morning Glory Mining Company of which A. A. Codd of Reno is president and general manager. Harry B. Skewes is superintendent and will be in charge of operations in addition to handling the Western Merger.

The Morning Glory is in a strongly mineralized belt and has wonderful possibilities as a producer. The recent strike of specimen ore in the Tightner shaft as the 2700 level has greatly increased interest in the possobilities of the Alleghany district which should become one of he livest mining camps in California in the next few years.

The Nugget is in receipt from New York of Technical Publication No. 211 containing a splendid discussion of the Gold-quartz Veins of the Alleghany District by Henry G. Ferguson and Roger W. Gannett of Washington, D. C. and presented at a recent meeting in New York of the American Institute of Mining and Metallurgical Engineers. It also appears in the current issue of Mining and Metallurgy. The copy is on file at this office and may be seen by any interested persons. It is a wonderful boost for the district.

Alleghany will yet come into her own as one of the greatest potential gold producing districts of the country.

LEAD ZINC DEPOSITS ARE BEING EXPLOITED

The lead and zinc deposits which have been located by Luke Williams in the Cottage Hill section south of Grass Valley will be exploited by a company organized by Mr. Williams and known as the Nevada County Lead and Zinc Mines Company ,incorporated under California laws. A stock selling permit will be sought. Mr. Williams as president, E. T. Jones vice president, and Richard Williams, secretary and treasurer. C. W. Briggs, E. K. Smart and Theodore A. Kohler appear as directors.

Dr. Albert Marshall, a cousin of Mrs. Ben A. Bost, and a native of Nevada City, passed away at his home in Misouri last week. He left here many years ago.

CALIFORNIA MAKES A NOTABLE CONTRIBUTION WORLD'S METAL MINING

The notable part played by California in contributing to the metal production of the world is emphasized in an historical summary of metal production in that State during the 78-year period, 1848—1926, made by the United States Bureau of Mines, Department of Commerce, which shows that during this period the State produced gold, silver, copper, lead and zinc to the value of $2,059,000,000. Of this total, the value of the gold output is nearly 88 per cent; silver, 3 per cent; copper, 8 per cent; lead, 0.6 per cent; and zinc, 0.4 per cent.

The mining history of California began on January 24, 1848, when James Marshall discovered gold in a ditch that was being dug to supply power to a saw-mill that Johann August Sutter was having built at Coloma on the American River, near what is now the town of Placerville. News of this discovery traveled with remarkable speed; within a very few weeks the towns were depopulated, and within a few months the procession from the rest of the world was under way to the fabulously rich new gold field. As a consequence, within the first three years of its mining existence, California contributed more than four times as much gold to the wealth of the world as had theretofore been produced in the entire United States.

A total of 663,763 tons of metal has been produced since mining began, and by this standard copper ranks first, with 75.67 per cent; lead second, with 16.37 per cent; zinc third, with 7.10 per cent; gold fourth, with 0.45 per cent; and silver fifth, with 0.41 per cent.

Over half a billion dollars' worth of gold bullion was produced during the decade of 1851 to 1860; this was nearly double the output of the next largest decade, 1911 to 1920, during which the greatest quantitites of copper, lead, and zinc of any record were produced. California has been called the "Golden State" because its gold mines have been far more productive of wealth than any other metal mines in the State. The gold-lode mines have yielded a nearly uniform amount, over $100,000,000 a decade, during the last 45 years. The enforced cessation of hydraulic mining in 1884 is clearly evident in the drop of placer-gold production between the decades 1871 to 1880 and 1881 to 1890. The gold yield increased in the decade 1901 to 1910, however, due to the large recoveries by dredges.

Copper did not become an important element in the metal output of California until the opening of the Shasta county belt in 1894. This source of copper was augmented in 1915 by the Plumas county belt, which in that year began large-scale production. The Foot-Hills copper belt has been a source of a relatively small yearly supply of copper since 1862.

In the early days of local smelting a fairly steady production was maintained by the lead mines of the Desert region, until the lowering of the price of silver in 1893. Lead mining was not again revived until the decade beginning with 1911, and most of this revival came after 1914, when the prices of all metals increased. With the post-war fall in the prices of both silver and lead many mines have been shut down.

Zinc was first produced in California in 1906 as a small by-product of some of the copper ores of the Foot Hills belt. The zinc-mining industry can be said to have begun with the opening of the zinc ore bodies in the Cerro Gordo district in 1907, and for a while much oxidized ore was produced. The larger part of California's zinc has come from the treatment of the mixed copper-zinc sulphide ores of the eastern part of Shasta county copper district and from lead-zinc sulphide ores from Santa Catalina Island, Los Angeles county, and from Orange county. Most of this zinc has been produced since the advent of selective flotation concentration.

The output of gold for the first 13 years of mining in California was the result of working surface placers by sluice box, rocker, and long tom. The yield subsequent to 1849 did not fall below $41,273,000 a year and reached a peak of $81,294,700 in 1852. Although quartz mines were discovered in Nevada county in 1850, the output of these deposits was little before 1860, largely because of the ease of winning gold from the surface placers.

Hydraulic mining was started in 1852 at Nevada City. By 1865 this method of placer mining was well established, and the years 1866 to 1876 were notable for their gold yield from hydraulic mines. In 1876, however, the agricultural interests in the valleys began litigation over the debris problem. The suits resulted in practically closing hydraulic mining in the Sierra Nevada mountains and led to the Sawyer decision of 1884, which virtually prohibited hydraulic mining in the watershed of the Sacramento and San Joaquin rivers. Some relief for the hydraulic miners was anticipated from the Federal Caminetti law passed in 1893; but hydraulic mining, except in Siskiyou and Trinity counties, has not been important since 1184.

Drift mining on the ancient buried channels was satrted at Forest Hill, Placer county, in 1852 and was an important source of placer gold by 1866.

During the period beginning about 1876 and continuing to about 1890 drift mining was most productive.

Dredge production begon on the Feather River in 1898, after several years had been spent in preliminary work. This industry repidly spread to the Yuba, Bear, and Sacramento rivers, and later practically all the streams on the east side of the Great Valley were dredged. For a number of years the gold produced by dredges averaged nearly $7,500,000 a year. The largest amount, $8,313,527, from 55 boats, was produced in 1917. Since the dredge yield has shown a tendecy to decline; much of the known dredging ground has been worked out, and the number of boats in operation is diminishing yearly.

California deep mines are predominately gold lode mines. For the two and one-half decades for which there are adequate data 96 per cent of the gold produced by all lode mines of the State has come from siliceous ores. The great bulk of the lode gold produced has come from the Mother Lode and from Grass Valley, Nevada City and Alleghany, whose mines have been producing since 1852. Copper ores are next in importance as source of gold, and the Shasta and Plumas county copper mines have been the most important sources of gold from this class of ore. The gold yield from lead and zinc ores produced in California is insignificant.

Further details are given in Bureau of Mines' Economic Paper 3, "Historical Summary of Gold, Silver, Copper, Lead, and Zinc Produced in California, 1848 to 1926," by James M. Hill, copies of which may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at a price of 5 cents.

ROUGH AND READY JOTS

ROUGH AND READY, May 25, (Special to The Nugget)—Mr. Hendonn, Grass Valley barber who recently bought the Townsend place, has moved in. Mrs. Townsend has gone to Grass Valley to visit with her nephew, Lee VanDuzen a short time befores leaving for Daniel, Wyoming, where she expects to make her home with her daughter, Mrs. William Todd. Her many friends all wish her a pleasant journey but regret to lose this friend and neighbor. Mrs. Townsend has lived here for twenty years. Mr. Hendon will receive a warm welcome.

The board of school trustees met recently for the purpose of selecting a teacher. Mrs. Margaret Wilson of Gold Flat will teach again and wil be gladly welcomed back by the children. We are hoping she will be able to secure a house here so we will have her for a neghbor.

Mrs. J. Capps and mother, Mrs. F. Wells, Mrs. Harry Wells and Glenn Capps of Williams spent Saturday with Mrs. Capps' son, R. L. Capps.

Clifford Capps, wife and family were here visting R. L. Capps and family.

Mrs. Williams gave an entertainment at the school house. The children rendered the following program for Mothers Day: Recitation—The White Carnation by Kathleen Hecker; Reictation—A Little Bird Tells, Sheldon Van Duzer; Dialogue—Mother, by six little chidren; With Love from Mother by Anna McCrea; Mother's Best Gift; Mother 'sDay Program by the school; Somebody's Mother, Johannah Parella.

The May Day program was a follows: Song—Welcome Lovely May by the school; Recitation—I stood Against The Window by Joe Grande; Recitation—The Acorn by Edna Wilson; Recitation—Its' Maytime, by Betty Williams; Outside Voices, by Doris Frank; Golden Rule, by Alma De Filippi; Maytime by Clyde Capps; Honest Old Toad, by Frank Grande; Piano solo by Anna McCrea; Recitation—A School Boy's Spring Fever, by Sidney Fippin; A Secret, by William Frank; Fairies and Chimneys, by Margaret Wilson; The Tramp, by Hugh Harliss; Song—The Cloudlet; The Chores, by Johannah Parella; If You Meet A Fairy, by Alberta McCrea; Recitation—Spring Song, by Margaret Thomas; Just Suppose, by Hilary Frank; Song—When You and I Were Young Maggie; Grandma's Glasses, by Norma Howe; Two Little Kittens, by Cyril Vian; The May Queen, by Anna McCrea; Tlayiet—The Queen of The May; May Pole Dance; Original Poems, Mrs. Wilson:

Much credit must be given Mrs. Wilson for the work she did in training the children and also in making the crepe paper costumes for the play and the May Pole dance.

The school will close June 11th as there two weeks to be made up owing to the teacher having scarlet fever last fall.

NORTH SAN JUAN ITEMS

NORTH SAN JUAN, May 25, (Special to The Nugget)— The young men are taking advantage of the long days by playing base ball in the Taber's field south of town. Several of the young men who are playing, work on the Flume. They make 5 or 6 miles back and forth to work besides putting in a good day's work at the flume. Call it pep or ambition, as you will, they deserve credit. Saturday night they are having a dance to raise funds.

Miss Margaret Rodgers came Monday to pay an extended visit to her aunt, Mrs. Sam McCullough.

Ad and Maggie Lohman returned to their ranch at Escalon the fore part of the week.

Mrs. Ward of Grass Valley made a business trip here Monday.

Ray McCullough and Ray Fogarty were visitors in Nevada City Saturday night.

Quite a lot of cattle has been going thru San Juan enroute to the mountain summer feeding places. Ed Granholm of Brown's Valley went thru the fore part of the week with a large drove of hogs which he was taking to Gold Lake. Will Clerkin went thru with part of his cattle which he was taking to his ranch near Pike.

Sweetland school closed Monday. The children enjoyed an ice cream treat in the afternoon.

Mr. and Mrs. I. L. Putman, Blue Goose Auto Camp, of Yuba City were visitors here Monday. They came via Bullards Bar and returned via Nevada City.

Gordon Kessler and Bill Kessler drove to Marysville Wednesday. Gordon Kessler returned the next day but Bill Kessler remained for a several day's visit with his daughter. Evelyn Kessler, who had been visiting in Marysville, returned with her father.

This week has proved an unlucky week for dogs in San Juan. Tuesday Ralph Carpenter's dog which was ied to the porch at the Lohman's home jumped over the porch rail and hanged himself. Wednesday the J. McCullough family dog, Shep, was run over by a machine and killed. He had been in the McCullough family seven years and is keenly missed.

The hills are beginning to turn brown and the cattlemen are praying for more rain.

Neilson's barn at Birchville was burned down early Friday morning. There was considerable hay in the barn at the time.

French Corral and North Bloomfield schools held a joint picnic on the Middle Yuba Friday.

Ray and Norman Fogarty drove to Hammonton on Saturday bringing back with them their mother, Mrs. Kern Fogarty, who had been visiting relatives for a week. Miss Lucille decided to remain for another week's visit so she could attend the circus in Marysville on Tuesday.

Gordon Kessler, Bill Kessler, Ernest Collins, and Chas. Covell went to Marysville Monday. All returned the same day exept Bill Kessler, who remained for a visit with his daughter.

Mrs. Acton M. Cleveland of Camptonville spent the fore part of the week here visiting her mother, Mrs. H. H. Huckins.

Mr. and Mrs. Ed Bogard, who have lived here for the past several months while Mr. Bogard was employed on the flume, left here Monday morning. They plan to go first to Pheonix, Arizona, and later to New York.

The Sotch broom is in full bloom now and the highway near San Juan is bordered by seas of gold.

Mrs. Leo Stein of Marysville drove over Wednesday to bring her father, Wm. Kessler, home.

Mrs. Medeline Wodell, Mrs. Rose Penoyer and Mr. Werner of Sacramento visited here Thursday.

Mr. Clark has sold his place here.

FRENCH CORRAL ITEMS

FRENCH CORRAL, May 25, (Special to The Nugget)— Well, another week has passed and still that much needed moisture is withheld. A good heavy rain would mean so mush to our beautiful country. However, we have water for irrigation purposes, for Pine Grove Reservoir is full.

Our water superisvor, A. Browning, has been busy outside of his beat, doing necessary repair work. With a crew of men he will go up the line today to finish up this work.

Our farmers are busy cutting hay just now. I guess they don't want that rain to come just now.

What a wise institution of Providence to reserve control of the weather! We surely would be in a continual rumpus down here if we had control. Yes, and "rumpus" is putting it mildly too.

Well, let's see what has been doing the past week.

Stock still being moved to the mountains.

A drove of probably 2000 sheep owned by Freman, passed through last Friday.

The Buck Bros. of Graniteville passed through with their cattle yesterday.

W. P. Clerkin has taken part of his heard to the mountains.

W. E. Moulton went to North Bloomfield Friday to bring his daughter, Louise, to spend the week's end at home. He was accompanied on the trip by Mrs. E. Chatty and children.

Mrs. E. Schwartz took Mrs. E. Sutherland, Mrs. K. Sullivan, Miss N. Sullivan and Albert Moynier for a pleasure ride in her new auto Friday afternoon.

Mr. and Mrs. W. E. Moulton and daughter, Louise, Mrs. E. Sutherland and daughter, Miss Barbara, attended the program and dance given by the Newtown school Saturday evening. The program was very interesting and much credit is due the pupils and their teacher, Miss Pardini. Of course the dance which followed was enjoyed by all.

Miss Theresa O'Conner ,closed her school at Pleasant Valley the 17th with a picnic for the puipls and school patrons.

Sunday brought many auto parties to this section. Several parties enjoyed a luncheon and rest under our beautiful wayside pines.

Mr. and Mrs. Cecil Hoffman, and Mr. and Mrs. L. Faig and little daughter, Gloria, all of Sacramento, were here for Sunday. Mr. Hoffman is one of our French Corral boys and always enjoys a visit to the old home place.

Mr. and Mrs. F. Foote and Mr. and Mrs. J. Wales of Grass Valley were Sunday visitors.

Mr. and Mrs. F. Browning and children of Nevada City visited his brother, A. Browning and family Sunday.

Miss Louise Moulton returned to North Bloomfield Sunday afternoon.

J. Swazey, E. Moody and Jack Phelan were here Sunday.

W. P. Clerkin made a trip to Marysville Monday.

Thos. Meyers went to Nevada City Monday and will remain for the week.

A. Browning, H. Browning, Chas. Wernman and M. Solaro were up near Graniteville Tuesday, doing repair work. Their machine went on the "blink" when they were returning, and after walking eight miles they hired C. Peterson to bring them home.

Our neighbors, Mr. and Mrs. J. Neilson, met with a serious loss when their big barn went up in smoke early Wednesday a. m. They are unable to acount for the cause of fire.

Mrs. E. Rommage and son of Auburn made a trip to Alleghany Wednesday and on their return visited their friend, Miss Millie Clerkin.

Miss Louise Moulton made a trip from North Bloomfield yesterday afternoon. She will return this morning to bring her pupils to Freeman's Crossing, where she is giving them a picnic today. Her school closes next Friday.

Again death has chosen from our old-time friends. When Archibald H. Bell, passed away at the Weimar Sanitarium Wednesday morning. While, his many friends regret that the treatment at that place could not bring a restoration to health, we know that death comes as a happy release from long suffering. Archie Bell, was one of our best beloved, and his kind and generous heart made friends for him everywhere. He came to French Corral when a boy of 17 years and lived with the family of his uncle, the late U. G. Bell, who was the first and for many years the super- Water Co. He attended the French Corral school and was a general favorite with all his schoolmates. He afterwards attended the Stockton Business College, where he took a commercial course. He also took up telegraphy. He was the first lineman on the old Ridge telephone lines. It was he who suggested the calls—long and short rings. At that time our long distance telephone was a most wounderful institution and as the Ridge line was the first long distance Bell telephone line successfully operated, Archie's name will ever be asociated with it. In company with others from this place, Archie Bell went to Arizona during the Tombstone gold excitement. While most of his younger days were spent on the Ridge, French Corral always claim him for her own. He leaves many friends to regret his passing. His funeral will take place in Nevada City at 2:30 this afternoon from Elks Hall. He was a member of the Santa Rosa branch of that order.

Miss Dorothy White, the public school nurse, with her mother and sister, visited the French Corral school this week.

TRUCK LINE GETS A HIGGINS CORNER PERMIT

The application of the Schneider Brothers truck line to get a foothold in this community from the rail road commission was successful in being granted a franchise to operate as far as Higgins Corner about 12 miles south of Grass Valley, which it is believed will stop any intending truck lines from covering the remaining distance to put the railroad out of business, as had been expected had the truck franchise been granted to Forest Springs.

DUMPING RUBBISH PROTESTED

The dumping of rubbish by unknown persons in a vacant lot on the state highway south of town has brought a great deal of protest and the officers are endeavoring to locate the miscreants. Meanwhile nothing has yet been done to make the road to the Reward Mine more presentable and remove the collection of garbage and tin cans from that vicinity. This is within the city limits.

D. M. Coughlan of San Francisco and a former resident of North Columbia, accompanied by Wilson Bishop of Oakland, passed through Nevada City Wednesday enroute to the upper country on a short trip.

ATTRACTIVE ARE THESE KITCHEN SETS

WHEN JOHN WANAMAKER WALKED BEHIND A PUSHCART

A great faith, a sublime self-confidence, the ability to save his earnings, was the magnet which attracted to John Wanamaker those things which made him a merchant prince. When young Wanamaker was delivering his first order of clothing in a pushcart in the streets of Philadelphia, he did not permit himself to think of his poverty, but made up his mind that with the money he would earn, he would save and some day become one of the biggest business men of the country. The opportunities that made Wanamaker rich, exist today.

All men cannot be Wanamakers, but there are always opportunities, here and elsewhere, and the man with money in the bank is always the man who can grasp them. Without some money, the opportunity slips by and you keep on in your humble job. This bank advises people to save their money. The biggest returns come to the people who do the saving.

IDAHO MINE HAS OF ACHIEVEMENT NOTABLE STORY

Continued from Previous Issue

Two years later it was bonded to the Idaho Maryland Development Company, and was worked by that entreprise in desultory fashion until the latter part of 1914. During that time, the company, with little capital, worked the mine only o the 1,00-foot level, and the ore extracted came chiefly from the old stones and pillars left from previous operations. Accordingly, in the year of the orld War, work was discontinued and the mine was allowed to fill with water.

The following year began the work of amalgamating and consolidating the properties, which compose the Idaho Maryland Company of today. Here is where the story of the "faith of men" begins.

In 1915, a number of engineers, who had long been familiar with the workings of the Empire and North Star mines, directed their attention to the comparatively unworked part of Grass Valley where the Idaoh Maryland lay. They had wide experience and knowledge of mining and geological conditions in the valley and, it may be stated, there is no part of the mining world where intimate knowledge is more urgently required. The almost eighty years record of the Empire mine has proved this beyond a doubt. The fact that the owner of that company was enabled, because of that knowledge, to reopen and place on a paying basis the shut-down North Star is a matter of record.

These engineers, filled wih this knowledge and realizing that the Idaho Maryland mine had been worked only to a depth of 2,000 feet, conceived the idea of combining the properties around the Idaho Maryland and working them jointly. There was sound engineeringe judgment in this idea, for veins run into other properties and must then be abandoned. That is why the Empire and North Star mines have for years had a standing offer to purchase properties lying contiguous to their boundaries.

Moreover, these engineers, fortified with their knowledge of the deeper workings of the Empire and North Star mines, could not believe that these Idaho Maryland properties were without ore bedies below the 2000-foot level, to which they had been worked. Such a mistake had been made by the owners of the North Star when they closed down their mine. W. B. Bourn reopened it and found profitable ore bodies thousands of feet below the level where work had been stopped, before he sold it to the Phelps-Dodge interests.

Accordingly, these engineers acquired, one by one, the Eureka, Idaho, Maryland, South Idaho, Union Hill, and other adjoining properties. It was wor time, however, and cpaital was hard to raise, so in 1919 control was sold to the Metals Exploration Company of New York, which worked the property until 1925. The original plans of the engineers, who had cut their mining eye teeth in Grass Valley, were, however, not adhered to.

There is no desire to stress the importance of local knowledge. It is none the less essential to go into a few details as to why this knowledge may mean all the difference between sucess and failure. Let us take the example of the Empire mine. The successful operation of that property is beyond doubt, when one remembers that from 1896 to 1927 thi mine showed net profits of from $240,000 to over $1,000,000 ever year. This is, undoubtedly, because more development work has bee done every year than any mining engineer, unfamiliar with local conditions, would dare to suggest. I other words, the formation of the Grass Valley ore bodies require most intimate knowledge for profitable working.

The Dorsey vein, to which we alluded and from which over $1,000,000 was recovered, is a first class example of this assertion. In working this vein, it appeared to run into another ore body at an angle, apparently to pinch out. The veins did not actually meet, but small ore sringers connected them as they approached, and no onward continuation of either vein was noticeable.

When the present owners took back the property from the Metals Exploration Company, which they did when that company went out of existence in all parts of the world in 1925, they remembered this "H" vein formation. They continued the drifts at several such points and a very few feet beyond where the two veins approached one another it was discovered they had resumed their course, although the veins had again moved away from one another.

Now in taking over the property in 1925, the new owners—the men of faith—were faced with a heavy heritage. Out of all the stockholders only Edwin Letts Oliver, president of the Oliver United Filters, Inc., and F. W. McNear, of McNear & Company , with a few friends and associates, were willing to risk their capital in the rehabilitation of the property.

The drifts in many places had caved in, timbers had rotted away or been crushed, equipment was worn out, facilities for efficient working were almost nil. Even the head frame, on which the all-important work of hoisting the ore is done, had not been set on a concrete foundaiton.

The first thing was to get the mine re-opened, and here again local knowledge was invaluable. The moment it became known that the Idaho Maryland was re-opening, independent miners known as "leasers" or "tributers" came and offered to do months of unprofitable development and rehabilitation work, provided they were given a hundred square feet of ore to work.

Arrangements were entered into with these men and were faithfully observed by both parties, and for three years the work of bringing the mine up-to-date, of discovering ore bodies, or re-equipping the property has proceeded. During the course of this development work the present management has taken out over $375,000.

Today the position of the Idaho Maryland property is as follows: Down to the 2000-foot level the mine is in first-class condition, with drifts opened and well timbered, with numerous ore faces opened up and ore bodies proved. Five ore bodies have been discovered, or rediscoevred, of which the principal are the 1900 vein, which is from 3 to 8 feet wide, and has been worked for 850 feet. This vein, acording to all geological indications, runs to the surface, on the slant, a distance of 3000 to 4000 feet.

The Morehouse vein, which the miners assert "is a mine in itself", has been discoered and worked, and runsv 3800 feet on the slant to the surface outcroppings. The vein on the 2050 level is from 4 to 10 feet thick, and values average $15 a ton, without the ore being in anyway sorted. Ore is now being extracted along a face 160 feet wide, cut in a present 50 feet from the drift.

Then there is the old Dorsey vein of which we spoke before—and a of this above the 2000-foot leve. while the Empire Mine works below 7000 feet with profit and the North Star below 8000 feet.

Suffice it to say that the Idaho Maryland property is now in position to work 10,000 tons of ore a month, or more if the necessary capital for equipment is provided And this has been made possible, and without any previous appeal to the public, by the faith of the men we have mentioned. For the last three years they have poured their own money into the property, with out fear as to future success or any faltering.

There are approximately 100 men employed at the mine at the present time, but with the program of expansion which has been planned it is expected to soon increase this number to 200 men.

The company is officered and directed by well known and successful business men, as follows:

E. L. Oliver, President (President of the Oliver United Filters, Inc.).

F. W. McNear, First Vice-President (of McNear & Co.).

Errol MacBoyle, Managing Director (President and General Manager Idaho Maryland Mines Co.).

And the following Directors: L. H. Duschak, P. Claiborne, E. T. Zook.

MASONIC DOINGS AT CAMPTONVILLE SOON

CAMPTONVILLE, May 25, (Special to The Nugget)—Everything is in readiness for the big benefit dance which is being staged Saturday evening, June 1st. The large second story of the Meek Mercantile Company has been made into a large dining hall in which the supper will be served. The town will be dolled up as for a fourth of July, flags displayed from all the street posts and porches. The town has been cleaned up and as usual is in keeping with its slogan "the cleanest town in the mountains".

A fine six piece orchestra from Marysville will furnish the latest music; dancing to start at nine o'clock sharp, supper served at midnight.

The local Masonic order is holding a meeting commemorating their 75th anniversary and the presenting to William B. Meek a fifty year button on the same evening. A huge crowd is expected to be in the own on this evening.

On Friday morning, May 31st at 7:20 the community and the big benefit dance will be broadcast over radio K P O Hale Bros. and the Chronicle, Hugh Borrett Dobbs at the microphone.

The proceeds from the dance go towards the building of a monument to the memory of Lester Allen Pelton, inventor of the famous world known water wheel, which invention was made in this community. Many Nevada City people are interested in the life and character of this man, and it is expected that they will be present to assist this good cause.

GRASS VALLEY PERSONALS

Visitors at the W. Sampson home were, Mr. and Mrs. W. L. Wheeler of Berkeley, Mr. and Mrs. Arthur L. Fisher, Mrs. Rose Sacket of Oakland; and Mrs. Clara Cheshire of Hollywood. They were members of the class of '89 and attended the 40th class reunion.

Mrs. Fred Foote had her hand severely injured in a washing machine ringer Tuesday.

Among those spending the week end in San Francisco were, Mrs. Ida Wood, Miss Georgia Wood, Roy Saxon, and Mr. and Mrs. Saxon.

Legion and Auxiliary members are preparing to celebrate the 4th of July in Grass Valley.

Mrs. G. H. Cobbledeck and family had as guests, Mr. and Mrs. Harry Gilds and daughter of Sacramento.

Harlan Wheeler of Cottage Hill district was a business visitor early in the week.

Lieutenant and Mrs. R. Coomb. and daughter spent last week in San Francisco.

Mr. and Mrs. E. W. Rowe attended to business affairs in the city recently.

FIRE SERIVE TAKING EVERY CAUTION TO PREVENT FIRES

The Forest Service is taking every percaution to guard against the forest fires. The lack of rain has shortened the spring season with the result that fires will be starting at a much earlier date. The local office is busily engaged sending out men to look out stations, and fire wardens over the district, making plans for the coming season.

On May 2 the first road crew of the three crews maintained moved equipment to the Camptonville section, under the direction of Foreman Robert Hughes. From there they went to Sierra county near Downieville. According to present plans they will open 66 miles of roads. It is planned to open up old roads, such as disused wagon and wood roads and cut new roads over mountain ridges. This will be highly beneficial to the Service work. It has three definite and important purposes—they may be used as rapid routes for conveyance of men to fires; act as natural fire breaks; and give back fire advantages. A 60 Caterpillar tractor and 7 ton grader are in the complete equipment.

On the 15th the remaining two crews of the Service were sent to mountain points. Thorne B. English as head of one crew will go to Lake Tahe country and work back through the Emigrant Gap district.

The third crew headed by Tony Costa, started maintenance work at Lemon Canyon and from there will go over the Gold Lake road and take in the country in the Bowman Lake section. The roads built in this way are known as "motorways".

Gilmore airport in Grass Valley is one of the established airports for the planes used in the spotting of fires. The field has been cleared, scraped and smoothed down for landing and a large squadron of planes could find an easy landing place. In case of fire the Service pilots could make easy landings.

Mrs. Polly Seal accompanied by her mother, Mrs. Louis LeDuc, returned to the former's home in San Francisco early in the week. Mrs. Seal had been here visiting.

J. R. Kneebone was a business visitor in San Francisco recently.

SIERRA COUNTY MINING

Some mining ground up at the old Hearst and Craycroft diggings owned by Louis Garibaldi and John Yore is to be developed right away by the owners. Mr. Garibaldi was in Downieville this week making arrangements for the summer's operations, and Mr. Yore was expected here at any time. Work on this property has been delayed owing to a shortage of water.

Peter Kieffer left this week for Sierra City to work at the Hilda mine.

Louis Garibaldi was here from Tyler this week looking after his mining interests in the Alabama Hill district.

Robert W. Morse, a mining man with large interest near Downieville, is here for a few days on business.

Dan Lavezzola is down from his ranch for a few days. He is convalescing after a spell of sickness.

Owing to piping operations at the Pride and Hilda mines, near Sierra City, the South Fork of the Yuba is too muddy for fishing. There is a distinct contrast between the North and the South Forks at the confluence of these streams, the former being clear and pretty, while the latter is a dirty yellow in color.

The hillsides about Downieville at this time of year are surely beautiful. The numerous dogwood trees with their large white blossoms stand out in sharp contrast against a dark background of conifers and maples of different shades of green and the latter prettiy decorated with tassels. The oaks, with still a different shade of green, help to complete a picture that few artists could do full justice to.

Joe Harkins took Andy Anderson and associates to Gold Lake last Sunday to look at some mining property. The visitors, who were from San Francisco, were much impressed wih what they saw.

Plans are being made for a big celebration in Downieville on the Fourth of July. Some new attractions are being arranged for and this is to be the biggest affair of its kind Downieville has attempted for a long time ,according to those who have charge of arrangements.

The annual ball of the local fire department will be held here on Saturday, June 7.

Obren Samarazich arrived Tuesday evening and proceeded on to Sierra City, where he has emlpoyment at the Pride Mine, which started up a few days ago.

Charles Mazzi went to work at the Pride Mine this week.

Costa's store is packing provisions to the Gold Hub and Ruby mines this week.

(The Messenger)

Mr. and Mrs. James Wales left Wednesday for a visit with their daughter and family in Pittsfield, Massachusetts. They will be gone for the summer.

Mrs. E. R. Waters visited her daughter, Thelma, in Sacramento early in the week.

Mr. and Mrs. C. H. Barker had as guests, Mr. and Mrs. Louis Merrigan of San Francisco.

DR. CALDWELL'S THREE RULES

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always has in favor of getting as close to nature as possible, hence his remedy for constipation is a mild vegetable compound. It can not harm the most delicate system and is not habit forming.

The Doctor never did approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, no appetite, headaches, and to break up fevers and colds. Get a bottle today, at any drugstore and observe these three rules of health: Keep the head cool, the feet warm, the bowels open. For a free trial bottle, just write "Syrup Pepsin," Dept. BB, Monticello, Illinois

LEGAL NOTICE

SUMMONS
NO. 5702

In the Superior Court of the State of California, in and for the County of Nevada.

SARAH PRESCOTT, Plaintiff,
vs.
JOHN SENNER, Sr., CHRISTINA SENNER, his wife, JOHN SENNER, Jr., FRED SENNER, WILLIAM SENNER, EMMA MALTMAN, ALEXINA C. M. GRISSEL, GEORGE A. GRISSEL, her husband, ARTHUR BARTON, and also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

Action brought in the superior court of the State of California, in and for the county of Nevada, and the complaint filed in the office of the clerk of said county of Nevada.

F. T. NILON,
Attorney for Plaintiff.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETING TO:

John Senner, Sr., Christina Senner his wife, John Senner, Jr., Fred Senner, William Senner, Emma Maltman, Alexina C. M. Grissel, George A. Grissel, her husband, Arthur Barton, and "also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto," defendants:

You are hereby directed to appear and answer the complaint in the action entitled as above brought against you in the superior court of the state of California, in and for the county of Nevada, within ten (10) days after service on you of this summons if served within this county; or within thirty (30) days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgement for any money or damages demanded in the complaint, as arising upon contract, or he will apply to the court for any other relief demanded in the complaint.

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the real property hereinafter described, adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto; to obtain a judgment of this court adjudging and decreeing that plaintiff is now, and has been, by herself and her predecessors in interest, in the actual, exclusive and adverse possession of said real property, continuously for the period of twenty (20) years immediately prior to the filing of the complaint in this action, claiming to own the same in fee as her separate property against the whole world, and that plaintiff by herself and predecessors in interest has paid all taxes of every kind levied or assessed against said real property during the period of five (5) years next preceding the filing of the complaint aforesaid; that plaintiff is the owner and entitled to the possession of said real property; that all claims of said defendants thereto are without right, and that defendants have not, nor has any of them, any right, title, estate, or interest in said real property or any portion thereof.

The real property affected by this action, and hereinbefore referred to is described as follows:

All that certain lot and parcel of land situate in the city of Nevada, County of Nevada, State of California, bounded and described as follows, to-wit:

All of the lot numbered three (3) and a portion of the lot numbered twelve (12) of block numbered (12) in said city of Nevada, as said lots and block are designated and delineated upon the map of the official survey of said city made by H. S. Bradley in the year 1869, described as follows, to wit:

Beginning at a point on the east line of Main street from which the corner of Main and Church streets bears north 28° 13' west 21.68 feet; thence from a true meridian north 62° 57' east 52.23 feet; thence north 14° 21' west 9.15 feet; thence north 21° 21' east 68.57 feet to the northeast corner at a stone wall on Coyote street, from which the corner of Coyote and Church streets bears north 4° 57' west 80.20 feet; thence south 5° 44' west 51.35 feet along Coyote street; thence south 76° 30' west 43.40 feet along stone wall; thence south 61° 07' west 56.70 feet to Main street from which the northwest corner of Snyder's brick garage bears south 27° 25' east 60.38 feet distant; thence north 29° 49' west 51.10 feet along concrete wall to the place of beginning.

Given under my hand and the seal of said superior court of the state of California, county of Nevada, this 22nd day of December, 1928.

GEORGE COUGHLAN,
Clerk.
By R. N. McCORMACK,
Deputy Clerk.

MUSSOLINI RULE

(Placer Herald)

For over four months one hundred and wenty men and women constituting the California Legislature have wrestled earnestly with the problems of the State.

Amongst the bills that received an extra amount of consideration was Assembly Bill No. 650, aimed to aid hydraulic mining and safeguard the valley below.

This bill battled every inch of the way. Administration leaders and packed committees made its path a thorny one. Despite all these obstacles it emerged from committee after committee, was able to win reconsideration in the Assembly and passed on to the Senate. Here again packed committees battered its face but could not drive it back. Turned down by the Finance Committee, it was able to win its way to the floor by resolution.

At this point the hydraulic miners, desperate for a capable leader, were inspired by that caption across one of the new state buildings, "Give me men to match my mountains", and turned to Senator James A. Allen of Siskiyou. Never will the mountain folk who listened to his plea in their behalf forget his calm and convincing words. Seconded by Senator Christian of Alameda county who, with cold and convincing logic, drove home the arguments of the engineering fraternity. After he finished, the Senate listened to an explanation of the oath of a Senator and the honor connected therewith; Senator Swing contended that there was nothing in the oath taken by any Senator that prevented him from using a little common sense. He further insisted that the bill was a good one and that he would vote for it.

On the first ballot ,the opposition had 18 votes and the hydraulic miners 13. A call of the Hosue was put on and the absentees, mostly of the San Francisco group, were rounded up. These people were sick and sore over the defeat of their Harbor Bill by the miner's representatives in the face of their loyalty to the hydraulic miners cause two years ago. When they filed in the writer wondered: were they "men to match the mountains" and would they forget personality and rise above pettiness and desire for revenge? The roll was called and as each aye rang out clear and distinct above the hum ,we felt that manhood and faith in our fellows had once again triumphed. The measure was yet shy one vote, when Senator Merriam arose and changed from No to Aye. The vote was announced and the hydraulic miner was : tep nearer his goal than he had een for 49 years.

The bill was at last on the way o the Governor to be weighed and balanced. Preparations were made or the hearing that was to come hen came the stunning blow to alf a century of hopes. Without a earing from our side and within wo hours of the adjournment of he Legislature, the measure was vetoed.

After four months of study by he Legislature and in the face of he Jarman and Haley Reports and he recommendation of Paul Bailey hat hydraulic mining be given a place in the State's co-ordinated ater plan, the bill was vetoed.

Later, the writer will write the inal article to a sreies already ublished as promised—meanwhile, he ponders over that caption "Give me men to match my mountains". What did the writer of the inscription mean? Did he have in mind some real men such as Senator Jim Allen, or, in despair, had he turned from one with feet of clay—never looking up, rooting for truffles?

Like the inscrutable and unfathomable smile on Mona Lisa's face th ewriter will ever be baffled as he lifts his eyes to those immirtal lines, "Give me men to match my mountains".

You can bank on the quality of a cigarette that continues to be the biggest success in smoking history

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels contain the choicest tobaccos grown . . . expertly blended for matchless taste and fragrance.

They have a welcome mellowness and mildness that you will find in no other cigarette.

Smoke them as often as you like, Camels never tire your taste.

The quality of Camels is never permitted to vary.

Only a superior cigarette could have won and held world leadership for all these years as Camel has done.
